Trumbull Services Announces Addition of Access CoverageCorp

Real-time new business submission tool enhances Trumbull product offerings

Columbia, SC – Trumbull Services, LLC announces the addition of Access CoverageCorp (ACC) to its corporate family. Access CoverageCorp provides the insurance industry with a real-time web-based new business submission tool and product configurator. INTERCHANGE™ offers a simple and intuitive quoting, underwriting, and submission interface that increases efficiency and provides business growth opportunities to carriers and wholesalers.

INTERCHANGE™ is carrier-sponsored technology that delivers wholesaler workflows, improved ease of use and is ACORD compliant. The solution uses a product configurator to deliver fully underwritten, bindable quotes, and employs reflexive questioning and dynamic presentation to provide only the relevant questions/data. INTERCHANGE™ can be tightly integrated with a carrier's rating and policy issuance systems.

"I am extremely excited about the addition of Access CoverageCorp. and its cutting edge technology," said Brad Burdick, president of Trumbull Services. "The INTERCHANGE™ solution is the perfect complement to Trumbull's policy administration activities. We look forward to leveraging ACC technology as Trumbull continues to distinguish itself as an innovative technology solutions company."

Charlotte, N.C. based ACC has been a wholly owned subsidiary of The Hartford Group. Its technology provides the submission engine behind The Hartford Partner Program which enables small agents to use the technology with minimal support from The Hartford. The program was the recipient of the 2008 Chairman's Award from The Hartford.

Trumbull Services, LLC is a leading provider of business outsourcing and technology services to the property and casualty insurance industry based in Windsor, Connecticut. Trumbull's business units (Agency Services, Policy Administration, and Claim Administration) offer products and services that span the entire P&C value chain. Trumbull provides business process outsourcing (BPO) and application service provider (ASP) solutions to the insurance industry in support of policy issuance, subrogation recovery, billing, and vendor management. In addition, Trumbull is one of the top four providers of flood insurance through the National Flood Insurance Program. Access CoverageCorp is based in Charlotte, North Carolina.
