(Print Name and Title)

National Flood Services, Inc. and the "Write Your Own" insurance companies we represent, welcome your interest in our Roll-over Program. The following guidelines have been established to make the transition from your current servicer to NFS as efficient as possible.

1. We require a Flood Insurance Agreement on file for your agency. The Agreement may be submitted at the time the roll-over information is sent to NFS.
2. Please submit a copy of the current Declarations Page. After verifying that all information is accurate, please initial it before sending it to NFS. If policy is elevation-rated and the elevations do not appear on the Declarations Page, please include a copy of the elevation certificate.
3. If possible, please submit information on **all** policies at once. This allows time for verification and renewal issuance in a timely manner and eliminates monthly follow up. We should receive this information to complete billing **60 days prior** to the earliest renewal dates of the policies. In order for NFS to process a Roll-over/Renewal, the current Declarations Page **must be received at NFS at least 45 days prior to its expiration**. If received less than 45 days prior to expiration the only way NFS can process the renewal is if the current Declarations Page is accompanied by cash, credit card authorization (VISA or Master-card), or a certified check. If any changes are made through the previous carrier, a copy of that change should also be sent to us in order to keep our files correct and ready for the renewal notice to be sent.
4. Please sign and return the enclosed authorization form along with the policy information (as indicated below) to begin the rollover process.

National Flood Services will process renewal billing based on documents submitted. Please review all declarations pages and policy renewal listings for accuracy. We will contact you by telephone if we need additional information.

## Rollover Documentation

New Federal Guidelines require the following information for single-family dwellings, 2-4 family buildings, other residential buildings or non-residential buildings:

A copy of the current declarations page, show the LFE and BFE if elevation rated,

OR

A copy of the declarations page and a copy of the elevation certificate if the LFE and BFE are not on the declarations page.

\* A copy of the application and application part 2 must be included if all of the rating information does not appear on the declarations page. If there is an enclosure, the enclosure size must be on the application.

### For residential condominium association policies:

A copy of the current declarations page showing the LFE and BFE, the current replacement cost of the building, the number of units in the building, two photographs of the building showing the front and the back of the building.

OR

A copy of the application/application part 2, a copy of the elevation certificate, and two photographs of the building

\* A copy of the application and application part 2 must be included if all of the rating information does not appear on the declarations page. If there is an enclosure, the enclosure size must be on the application.

### For submit for rate buildings:

A current declarations page, a copy of the signed application & application part 2, a copy of the elevation certificate, a signed variance form, the enclosure worksheet (if applicable), a copy of the elevated building determination (if applicable), some clear photos of the building and breakaway walls memo if "V" zone.

**NOTE:** While a current declarations page is required to establish effective dates, a declarations page from a prior term may be used for elevation data if the LFE and the BFE are contained on the declarations page and the property address on the dec matches the property address being insured.

**NOTE:** For ALL "V" zone properties (rated with elevation information), we must also have the replacement cost & actual date of construction.
